

SALIH KAAAN KOÇ

salihkaaankoc@gmail.com – +90 (552) 029 5752 – Istanbul – github.com/salihkaankoc

EDUCATION

Yıldız Technical University

Business Administration

2015 – Did Not Finished

Istanbul

Marmara University

Computer Programming

2021 – 2025

Istanbul

JOBS

Freelance

Software Developer

2020 – Present

- Coded a lot of mobile projects with Flutter, Firebase and SQL
- Improved myself in Backend coding with Node JS

Mopaş

Software Developer

Jul 2022 – May 2023

Istanbul

- I coded the supermarket's shopping application and many applications actively used within the organization from scratch and integrated the marketplaces.
- I actively worked with REST API and Cloud Databases. I changed the structure of many applications and made constant updates.

Kaanlar Gıda

Software Developer

May 2023 – Jul 2023

Istanbul

- I made updates to the food company's website. I created a portal that is shared by all units of the company.
- I developed modules with ERP and added many plugins to the website.

Bernar Lojistik

Full Stack Developer

Jul 2023 – Apr 2024

Istanbul

- I coded pikargom.com, which works integrated with marketplaces such as Fedex and Etsy, from scratch.
- I prepared services for cargo tracking and cargo fee calculation. Countries, regions, fees, etc. I turned complex processes into services that can run continuously.

Youthink Academy

Software Instructor

Apr 2024 – Still

Istanbul

- HTML, CSS, Javascript, React, Node JS, .Net Core etc. for students who want to become Full-Stack Developers. I provide training that includes all technologies.
- I coded the website that can purchase and track courses. PayTR is used as the payment infrastructure on the website, which is coded in MongoDB and Next JS.

- Javascript: Expert
- React: Expert
- Dart - Flutter: Expert
- Node JS: Advanced
- MongoDB: Advanced
- SQL - MySQL: Advanced
- Firebase: Advanced
- JIRA: Intermediate
- Next JS: Expert

PROJECTS

PiKargom Node JS, Next JS, React, MySQL

<https://pikargom.com>

User-friendly website with complex calculations that works in collaboration with marketplaces such as Fedex and Etsy and allows you to send cargo all over the world.

Mopaş Dart, Flutter, MySQL

<https://apps.apple.com/tr/app/mopa%C5%9F-online-supermarket/id1546294060>

Shopping application of a supermarket with approximately 130 branches, available on both Android and IOS markets. It works integrated with large marketplaces such as Trendyol and Hepsiburada. You can order and track your order.

Youthink Payment Next JS, Mongo DB, Node JS

<https://payment-youthink.vercel.app/>

You can buy online courses and get an idea about the courses. Once the shopping is completed using PayTR with secure payment, it is sent to the authorized person by e-mail and the user is contacted.

Worditory Flutter, Mongo DB, Node JS

https://play.google.com/store/apps/details?id=com.worditory.worditory&hl=en_US

A mobile application that I used to make and left unfinished, aiming to teach English words by trying to find the letters of random words.

Kriptrade Node JS, Next JS

<https://kriptrade.com/>

I tested some modules and tested the scenarios and gave feedback so that users could have a better experience.

Habit Together Flutter, Node JS, MongoDB

https://play.google.com/store/apps/details?id=com.kaan.habit_together

Mobile application where you can set goals and habits and interact with other people.

CERTIFICATES

Dart - Flutter

I successfully completed Google Digital Garage's Dart - Flutter course and exams.

May 2022
